# Lokesh Kumar

## Front-End Web Developer

## Profile

Highly motivated and skilled Front-End Web Developer with a passion for creating innovative and user-friendly web applications. Proficient in front-end, utilizing a diverse set of technologies and frameworks. A fast learner with a strong foundation in programming and a keen eye for detail. Seeking an opportunity to contribute to a dynamic team and leverage my skills to develop robust and scalable web solutions.

## Experience

### Web Developer Intern

Bit and Bites Robotics

June 2022 - Sept 2022

- Developed and enhanced responsive website using HTML, CSS, JavaScript, and React.
- Collaborated with the team on real projects, troubleshooting code and improving web functionality.
- Contributed to web application creation and maintenance, ensuring optimal user experience

## Projects

### HAAN Website Clone [GitHub](#) | [Live](#)

Cloned an e-commerce site specializing in hand sanitizers and skincare using React and CSS. Deployed the front end on Vercel and established a Render database for efficient data management. Maintained original functionalities while ensuring responsive design.

**Tech Stack:** React, JavaScript, CSS, and JSON server for data storage

### Todo Application [GitHub](#) | [Live](#)

- Created a user-friendly Todo Application where user can manage their daily tasks
- Users can log in, add todo see their daily tasks, mark their favourite todo, or delete the todo
- Implemented Google authentication or other social media authentication for login and signup using the auth0.
- It is a CRUD application user can create, read, update, and delete the todo tasks
- **Tech Stack:** React, JavaScript, CSS, and JSON server for data storage

### Weather Application [GitHub](#) | [Live](#)

- Created a weather application where users can see the live weather of any locations
- Live weather data is fetched from the weather API
- A search bar is implemented so users can see the weather reports of other places.
- **Tech Stack:** React, JavaScript, CSS, and JSON server for data storage
